

Information about scoliosis from the Spine Society of Australia

The Scoliosis Australia website (www.scoliosis-australia.org) is a project of the Spine Society of Australia, an Affiliate of the Australian Orthopaedic Association, and provides information about scoliosis, the commonest form of spinal curvature, for patients, parents, health professionals and medical practitioners.

Topics covered are:

- About Scoliosis - Information for patients and parents
- Policy Statement
- The National Self-Detection Program for Scoliosis
- Self-Detection Brochure
- Role of the Family Doctor and separate summary
- Role of the Radiologist
- Genetic Basis of Scoliosis
- Removal of Correction Rods
- Scoliosis Specialist Directory

Comments on the information provided are welcomed and should be emailed to - mail@scoliosis-australia.org
